## SUMMARY STATEMENT

Highly analytical and results-focused professional with a robust background in logistics, inventory, and operations, now leveraging Full-Stack Web Development skills to build scalable digital solutions. Expert in transforming complex data into actionable insights to optimize processes, drive informed decision-making, and enhance efficiency. Adept at creating dynamic web applications and solving real-world challenges with a unique blend of operational foresight and technical proficiency.

---

## TECHNICAL SKILLS

- Data Analysis Tools: Power BI, Python, MYSQL, Microsoft Excel (Advanced), Data Cleaning, Data Visualization, Data Reporting.
  - Programming Languages: JavaScript (Node.js).
  - Web Technologies: HTML5, CSS3, Express.js, RESTful APIs, Responsive Design.
  - Databases: JSON (File-based DB).
  - Deployment: Render, Web Hosting.
  - Version Control: Git, GitHub.
- 

## SELECTED PROJECTS

### *Arcade Ascend (Full-Stack Web App Prototype)*

- Developed a full-stack mini-game application with user authentication (guest, login, registration), dynamic UI control, and basic game data tracking.

- Built using Node.js/Express.js for the backend, HTML5, CSS3, JavaScript for the frontend, and deployed live on Render.com.
- Showcases end-to-end web application development and deployment.

#### *NexusTask (Frontend Todo Application)*

- Created an interactive Todo application featuring full CRUD operations, persistent local browser storage, intelligent task filtering, and dynamic UI animations (including light/dark mode).
  - Utilized HTML5, CSS3, and Vanilla JavaScript to deliver a clean, responsive, and intuitive user experience.
  - Highlights strong frontend development, data handling, and UI/UX design.
- 

## **PROFESSIONAL EXPERIENCE**

#### *NET-A-PORTER – Distribution Assistant | March 2018 – June 2023*

- Conducted comprehensive quality control inspections, analyzing defect rate trends and reporting key analytics to supervisors to inform process improvements.
- Optimized order fulfillment by pulling and dispatching customer orders based on priority metrics and strict delivery windows.
- Computed and reported critical KPIs including on-time delivery rates, order fulfillment accuracy, and inventory turnover using advanced Excel functionalities, aiding operational visibility.
- Maintained stringent warehouse data integrity through precise inventory level updates and meticulous processing of shipment logs.
- Supported thorough inventory audits and performed root-cause analysis of discrepancies utilizing historical data for corrective action.
- Applied data analysis techniques in Excel (pivot tables, VLOOKUP, conditional formatting) to continuously monitor stock movements and identify efficiencies.

#### *TUFFNELLS PARCEL EXPRESS – Warehouse Supervisor | 2016 – February 2018*

- Led daily warehouse operations for a team of 15 employees, consistently meeting or exceeding key performance indicators (KPIs) tracked via operational dashboards.

- Developed and maintained data tracking systems for shipping logistics, inventory accuracy, and team productivity.
- Generated comprehensive performance reports and operational summaries using Excel, providing critical insights for management decision-making.
- Implemented and oversaw real-time tracking methods to continuously monitor and streamline order throughput.

#### *WINCANTON FOR SAINSBURY'S – Warehouse Assistant | 2014 – 2016*

- Managed and maintained accurate stock control databases, ensuring consistent data entry and integrity for supply chain operations.
- Supported efficient order fulfillment and inventory rotation processes through precise barcode tracking and system updates.
- Collaborated with team leads to analyze and reconcile discrepancies in shipment records, ensuring inventory accuracy.
- Documented weekly inventory counts using detailed spreadsheets, contributing to efficient stock management.

#### *LIDL – Warehouse Operative | 2013 – 2014*

- Executed efficient order picking, packing, and loading/unloading of trucks, adhering to strict operational timelines.
- Accurately logged incoming and outgoing shipments into internal systems, proactively resolving any data inconsistencies.
- Assisted in rigorous safety audits and prepared detailed reports, contributing to a compliant and safe work environment.

#### *ADVANTAGE EDUCATION LTD – Office Assistant | 2011 – 2013*

- Performed accurate data entry for academic and financial records, ensuring data integrity and accessibility.
- Organized and meticulously analyzed scheduling and reporting data to support administrative functions.

---

## **EDUCATION**

- ICJCA Computer College – Data Analysis, 2025.

- Newham College London – BTEC National Diploma in Business, 2009.
  - Greenwich Community College – BTEC First Diploma in Business, 2007.
- 

## **CERTIFICATES**

- Diploma in Data Analysis @ Distinction Level.
